Teacher Advisor Group (TAG) Activity Permission Letter

As part of our Teacher Advisor Group program at Brooks Junior High school we often plan activities that take us out of the building and into the community. The purpose of these community excursions is to build positive relationships in our TAG groups and positive relationships between BJHS, its students and the community at large. As a staff at BJHS we see these activities as an important part of what we do in TAGs.

Last year our TAGs participated in Random Acts of Kindness in the community, some groups walked to 7-11 and other downtown businesses, went into other Grasslands Schools for activities with younger students, to the Food Bank, a morning watching the Brooks Rodeo, etc. To enable the school and your child to continue these valuable and enriching activities we require students to have permission and a signed acknowledgement of risk form.

Acknowledgement of Risk

_____ (**Print Student last name, first name**) has permission to participate in community based activities through the TAG program at Brooks Junior High School. I/we understand the nature and purpose of these activities and accept the risk that may be associated with participating in them. This risk may include walking to various venues in the community, transportation by Grasslands buses or staff within the community, walking near traffic areas and crossing streets, and visiting other schools or businesses in Brooks.

All activities will be approved by school administration in accordance with Grasslands Policy and Procedures. Students will be given specific and strict instructions prior to any activity that occurs outside of the school building or off school property. Other school or specific class field trips will still require additional permissions as outlined by Grasslands Field Trip Policies.
